

India's Highest ROI Flexo and converting solutions

Alliance Printech is a renowned leader in the printing & converting industry, backed by 18 years of industry presence and a management team with over 35 years of experience. Our proven track record and unwavering commitment to adding value to businesses have earned us the trust and loyalty of numerous repeat customers, fostering long-term relationships. Our commitment to delivering exceptional value is reflected in our proven products, which consistently increase output, enhance quality, and reduce waste. Our fully upgradeable machines ensure that you can continuously leverage the latest technology to meet the changing needs of your customers. At Alliance Printech, we go beyond delivering exceptional products; we focus on understanding your unique business challenges and pressures, providing comprehensive support and solutions that empower you to excel in your day-to-day operations. With our customer-centric approach, we help you increase productivity, drive profitability, and unlock your full potential.

➤ Vision

To be the leading provider of innovative and high-quality flexographic printing presses, fostering healthy competition and driving the overall development of the label printing industry.

➤ Mission

Our mission is to deliver exceptional value to label printers by offering the best-in-class machines, unwavering commitment to quality, and a customer-centric approach. We aim to be their trusted partner in growth, continuously learning from our customers to improve our offerings and drive mutual success.

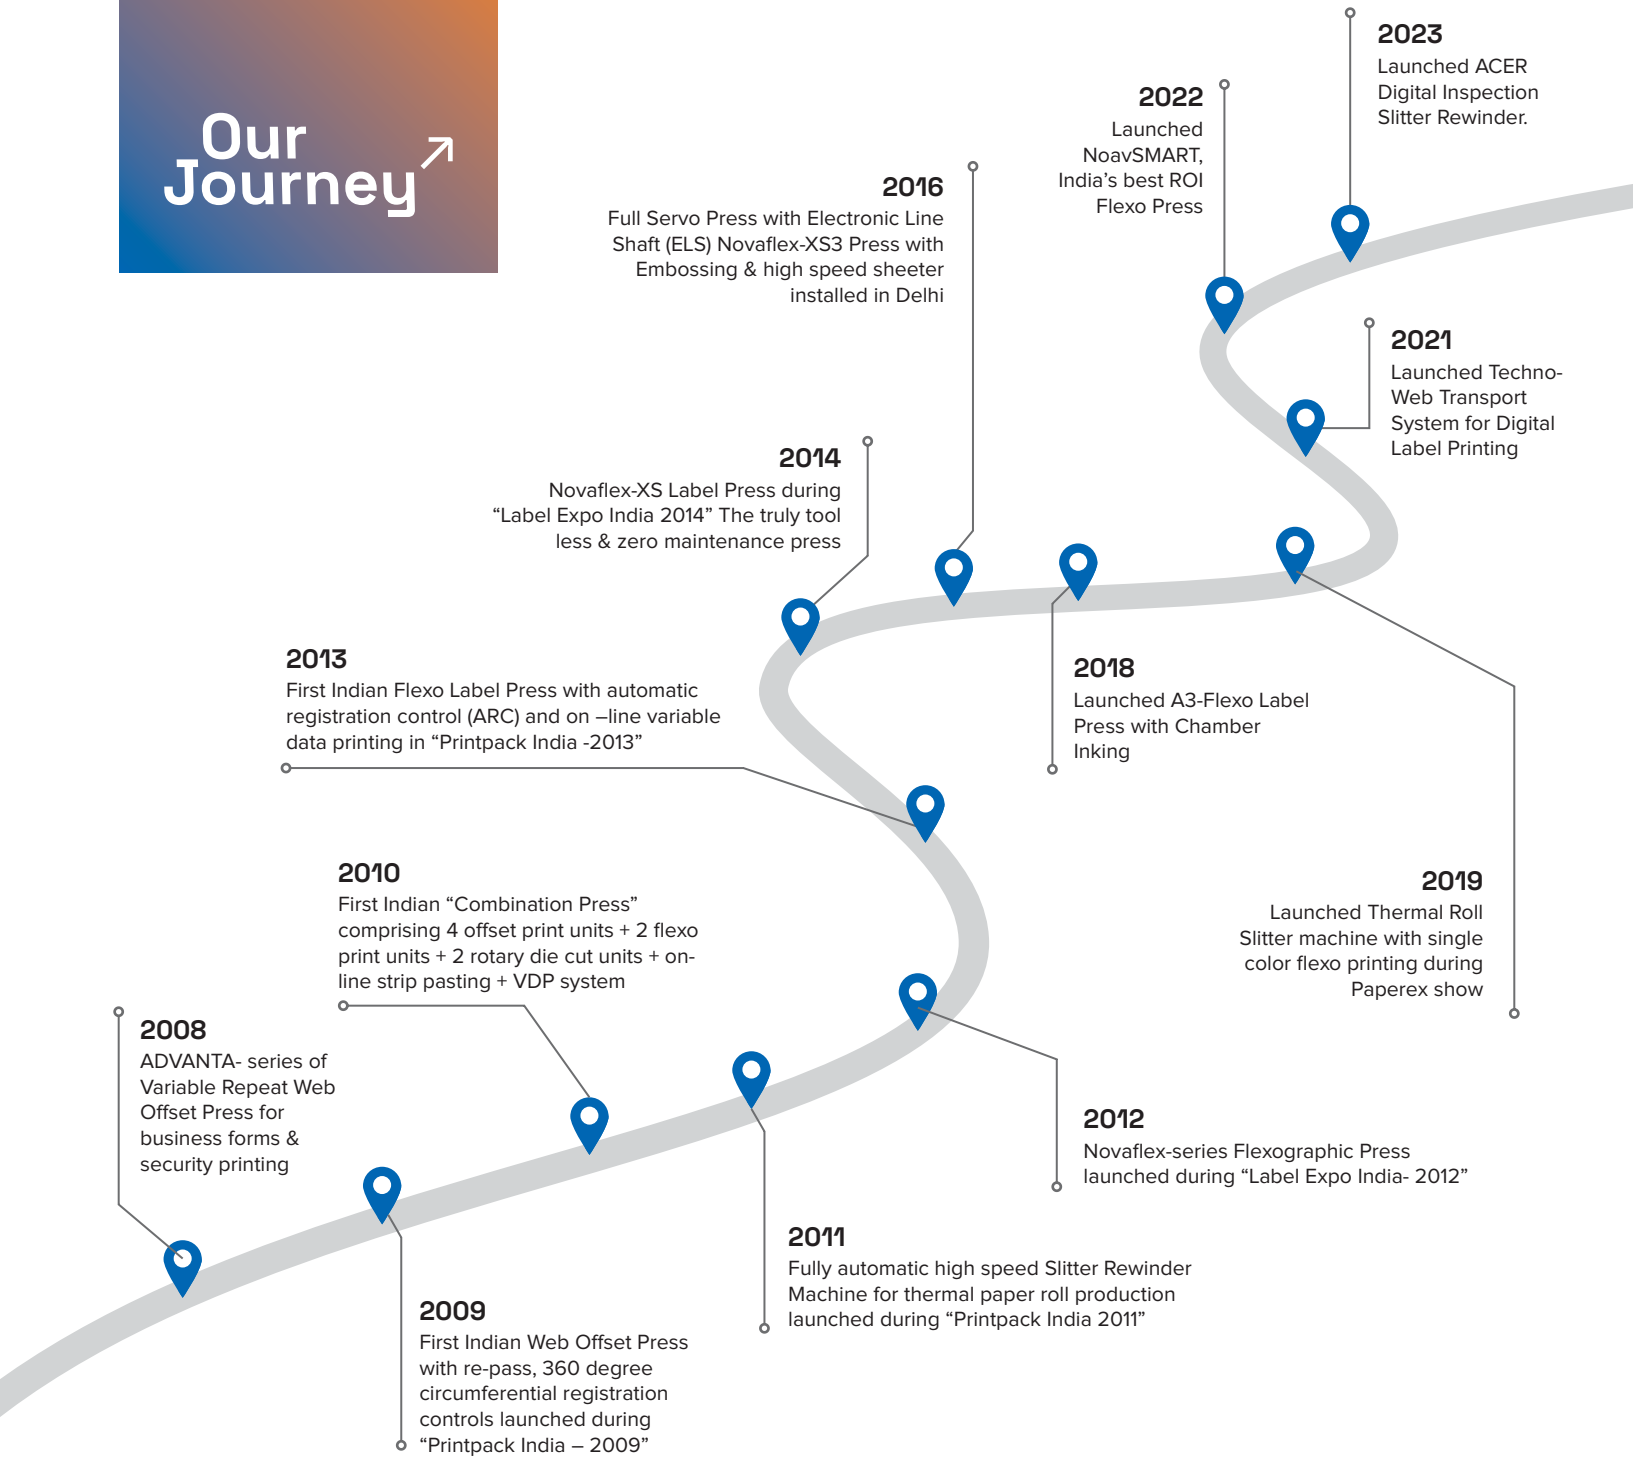

➤ Core Values

Customer First: We prioritize our customers' success and strive to add value to their businesses through our solutions and services.

Integrity: We believe in conducting business with integrity, maintaining transparency, and fostering trust with our customers and partners.

Innovation: We embrace innovation, setting trends in the industry with our cutting-edge technology and forward-thinking solutions.

MULTI SUBSTRATE PRESS

NOVA A7

Applications :
Self Adhesive Labels, Flexible Packaging, Shrink Sleeves, Lamitube, IML etc.

Introducing the Nova A7 Flexo Press, the pinnacle of printing technology for the labels and flexible packaging industry. The Nova A7 features the latest high-tech dual servo architecture, providing ultra-stable web control. With individual drives for both print and web, this advanced system ensures unparalleled printing stability and maximizes the effectiveness of features like Pre-Register and Automatic Register. As a top-of-the-line printing solution, the Nova A7 is designed to be a truly multi-substrate press, offering unmatched versatility and precision for discerning printers seeking the highest quality and performance.

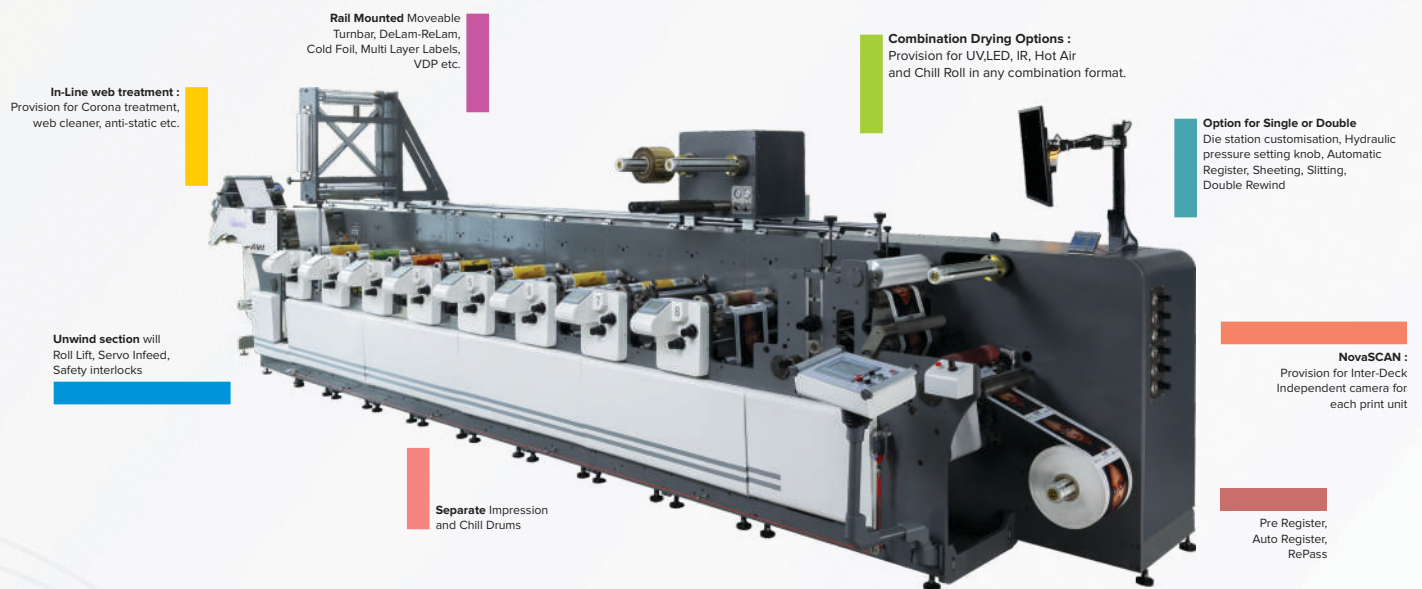

Technical Specifications:

- Working width (mm) (inch) : 370 (14.5") | 450 (17.7") | 550 (21.6") | 670 (26.3")
- Max unwind & rewind diameters (mm) : Up-to 1000
- Max matrix diameter (mm) : Up-to 650
- Substrate Range (micron) : 10 μ - 200 μ
- Repeat range (inch) : 8" – 24"
- Mechanical Speed : 200 m/min
- Multi Substrate Capabilities : Chill Drums available
- Die Cut stations : 1-3

NOVA A5

Applications :
Self Adhesive Labels, BOPP, PVC & PET Shrink Film,
Lamitube, PE etc.

Introducing the Nova A5 Flexo Press, a marvel designed to elevate your printing operations. The Nova A5 boasts individual servo drives on each printing station, ensuring superior web control and significantly reducing wastage through advanced features like Pre-Register. Additionally, the Nova A5 can be configured with ARC (Automatic Registration Control), making it effortlessly capable of handling even the trickiest substrates with ease. The Nova A5 is a versatile and efficient solution, perfectly tailored for printers seeking enhanced performance and precision in their workflow.

Technical Specifications:

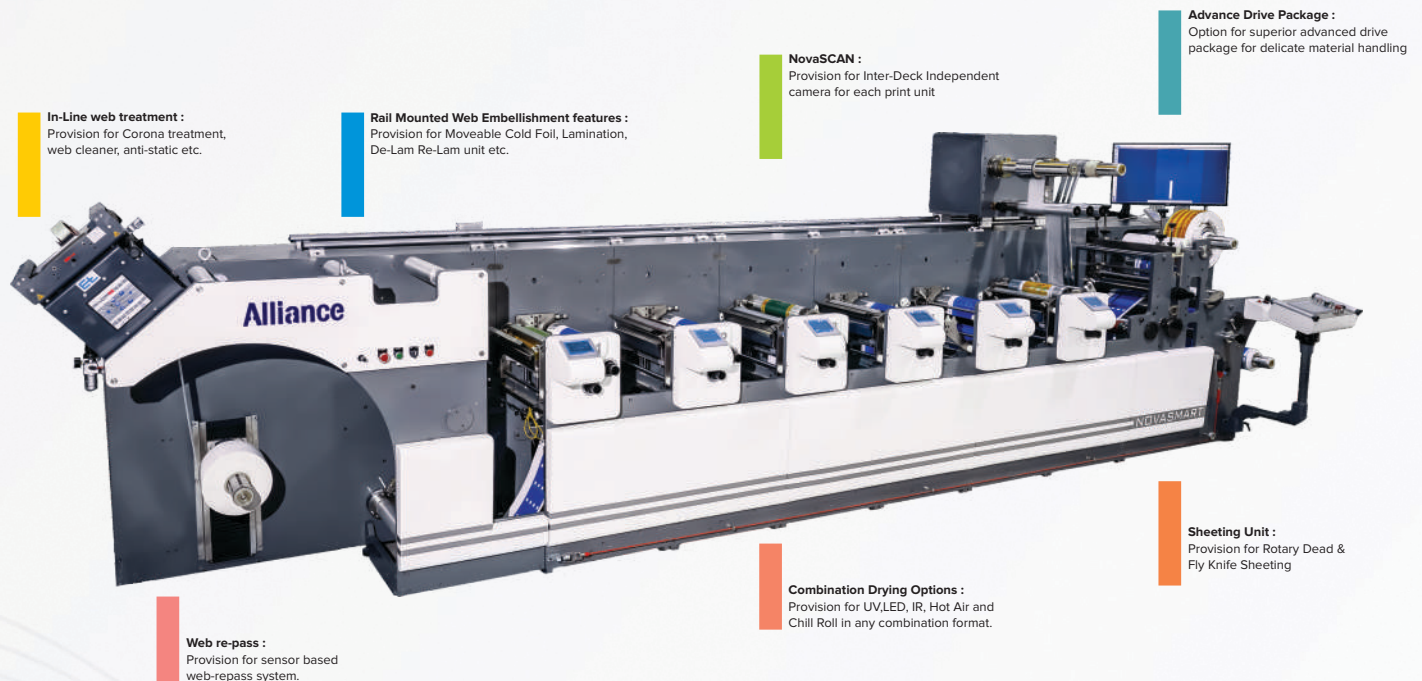

- Working width (mm) (inch) : 370 (14.5") | 450 (17.7") | 550 (21.6") | 670 (26.3")
- Max unwind & rewind diameters (mm) : Up-to 1000
- Max matrix diameter (mm) : Up-to 650
- Substrate Range (micron) : 12 μ - 250 μ
- Repeat range (inch) : 8" – 24"
- Mechanical Speed : 180 m/min
- Multi Substrate Capabilities : Chill Drums available
- Die Cut stations : 1-3

NovaSMART

Applications :

Self Adhesive Labels, BOPP, PVC & PET Shrink Film, PE etc.

Introducing the NovaSMART Flexo Press, the ideal press for the new age printer aiming to maximize ROI. Equipped with an Advanced MLS drive system and high-life branded components, the NovaSMART offers exceptional reliability and performance. Its sturdy design ensures excellent registration and the capability to handle a wide range of substrates, making it a versatile and valuable asset in any printing operation. Whether you're just starting out or looking to expand your capabilities, the NovaSMART delivers the perfect balance of innovation and efficiency.

Technical Specifications:

- Working width (mm) (inch) : 370 (14.5") | 450 (17.7") | 550 (21.6") | 670 (26.3")
- Max unwind & rewind diameters (mm) : Up-to 1000
- Max matrix diameter (mm) : Up-to 650
- Print units : 2 - 10
- Mechanical Speed : 160 m/min
- Repeat range (inch) : 8" – 24"
- Substrate Range (micron) : 12 μ - 250 μ
- Multi Substrate Capabilities : Chill Drum
- Die Cut stations : 1-3

ACER

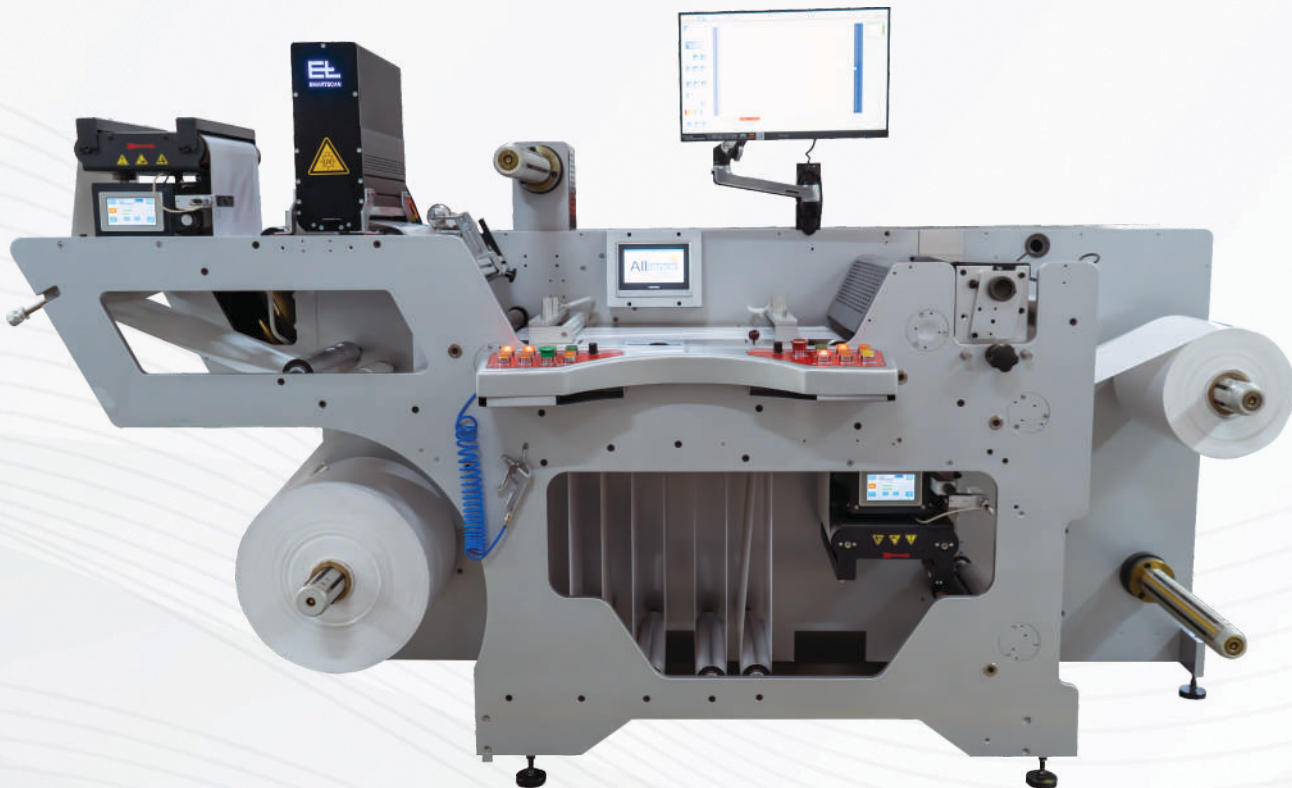

Introducing ACER, Alliance's cutting-edge digital inspection and slitting machine. ACER features E+L's smartscan system, offering an exceptional 200% inspection capability for paper and filmic labels. Designed as the perfect complement for printers, ACER enables stringent quality control measures to meet the ever-increasing compliance requirements. The machine's high-speed design allows for slitting at speeds exceeding 300 meters per minute, while incorporating essential features such as dual rewinding and waste rewinding. ACER prioritizes safety, adhering to the highest safety standards. Experience the unmatched precision, efficiency, and safety of ACER, empowering your printing operations with unparalleled quality control.

Technical Specifications:

- Working width (mm) (inch) : 370 (14.5") | 450 (17.7") |
- Max unwind & rewind diameters (mm) : Up-to 700
- Mechanical Speed : 300 m/min

Customization Options:

- Exit web guide system
- Dual rewind
- Razor slitting
- Waste rewinder
- Variable data printing

Techno 2.1

Introducing TECHNO 2.1, the groundbreaking web transport system specifically engineered for high-speed digital printing. This revolutionary product has empowered our partners to develop cutting-edge digital printing solutions that are widely adopted worldwide. TECHNO boasts the capability of accommodating multiple web treatment modules, making it an all-substrate press. Our unwavering commitment to continuous improvement and relentless development has resulted in this engineering masterpiece. Experience the unrivaled performance and innovation of TECHNO 2.1, setting new benchmarks in the world of high-speed digital printing.

In Partnership with
JetSCI by Monotech

Customization Options:

- MultiSubstrate Capabilities
- Flexo Print Unit
- Web cleaner
- Web corona treatment
- Advance drive system

NovaGRAPH

Applications :

ECG Rolls, POS Rolls, Industrial Charts, Medical Charts

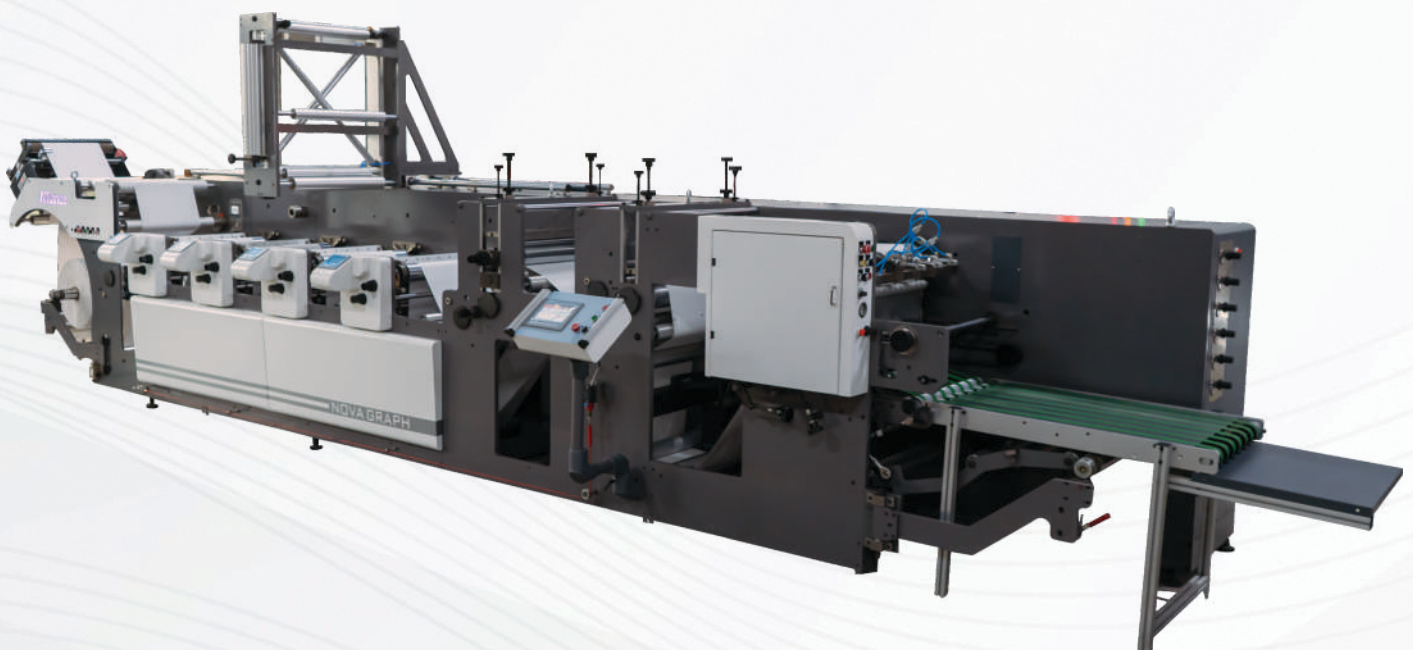

Introducing the exceptional NovaGRAPH, a specialized metric size gearing flexo press specifically designed for medical charts, ECG rolls, and POS/ATM rolls. The NovaGRAPH offers the versatility of two configurable production formats: roll to roll or roll to fold. This press is perfectly suited for applications requiring quick-drying water-based flexo inks, sensor hole punching, cross and vertical perforation, and high-speed fan folding. With its unique offering, the NovaGRAPH stands as a one-of-a-kind product from Alliance. Experience the outstanding customization options and exceptional quality that have enabled businesses to achieve remarkable growth. Choose the NovaGRAPH and unlock unparalleled possibilities in your printing operations.

Technical Specifications:

- Working width (mm) (inch) : 450 (17.7") | 550 (21.6")
- Max unwind diameter(mm) : Up-to 1000
- Max rewind diameter(mm) : 650 | 1000
- Fan Fold sizes(mm) : 100 to 400
- Gearing : 5mm C.P.
- Repeat range (mm) : 200 – 600 (Steps of 5mm)
- Mechanical Speed : 150 m/min

Customization Options:

- Cross-turnbar
- Web cleaner
- Web corona treatment
- Fan fold unit
- Drying options: UV (Mercury) | UV (LED) | Hot Air | InfraRed
- Programmable print marker

ACE 05

Applications :

POS Rolls, ATM Rolls, Lottery Tickets, ECG Rolls, Plotter Rolls

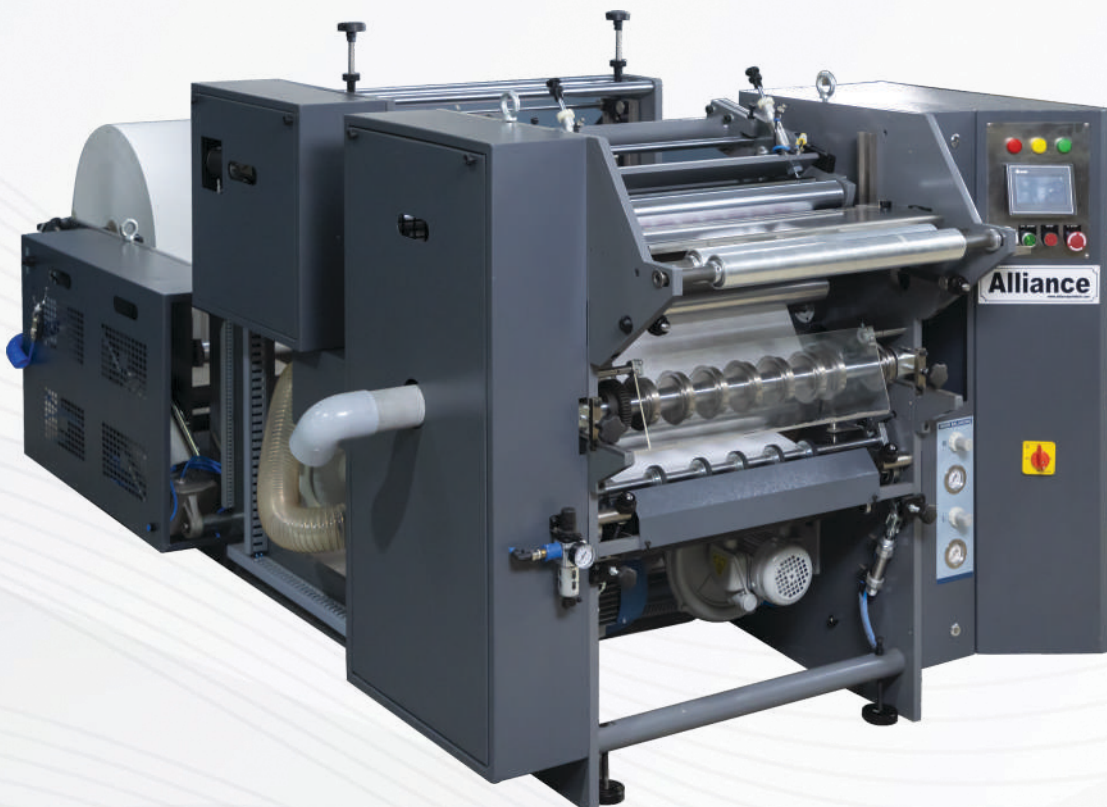

Introducing the renowned ACE 05, a highly regarded slitter rewinder that has earned its reputation in the industry. With its exceptional speed, versatility, and customizable features, the ACE 05 emerges as the perfect solution for paper roll conversion in various applications such as POS rolls, ATM rolls, ECG rolls, and lottery rolls. Offering the flexibility of accommodating multiple sizes of input rolls, the ACE 05 can be tailored to suit your specific needs. Its timeless design, tested over years of production, ensures rapid changeovers, high production rates, and impeccable rewinding quality. As an added advantage, the ACE 05 can be configured with a variable size flexo printing unit for single side printing. Experience the excellence and efficiency of the ACE 05, setting the benchmark for slitter rewinders in the industry.

Technical Specifications:

- Working width (mm) (inch) : 510 (20") | 800 (31.4") | 1050 (41.3")
- Max unwind diameter (mm) : Up-to 1000
- Minimum slit width (mm) : 40
- Minimum core diameter(mm) : 15
- Mechanical Speed : 160 m/min

Customization Options:

- Variable size flexo print unit
- Web guide
- Ejector table
- Cross Turn Bar

Why[↑] Alliance

Our Management Team is lead by our founder & M.D. Mr. Jatinder Kumar Julka who has instilled adherence to business ethics & integrity into the heart & soul of our organization. Our Management believes in a “Hands-On” approach to all aspects of the working of the organization be it Marketing, Sales Manufacturing, Quality, Finance or Service Support. At the same time the management believes in providing functional autonomy to all unit heads so as to encourage the spirit of innovation & result orientation.

Dust Free, Air conditioned & fully equipped Assembly Floor

Modern machine shop equipped with CNC Milling, VMC, Lathe Machine, QC Lab, Dynamic Balancing Equipment etc. for in house component manufacturing.

Our Team

What they say?

We've been using the Alliance NOVA Series Machine for a year and are very satisfied with its performance and the support from the Alliance team. They've consistently provided prompt assistance when needed and have even proactively sent service reps to monitor the machine's upkeep. Alliance as a company is dedicated to customer satisfaction.

Sanjay Mehta, Metco Creations, Mumbai

After thoroughly evaluating all the options in the market, we decided to invest in Alliance's Nova A5 for our second machine. Working with Julka Ji was a smooth and transparent experience, and we felt a genuine comfort in starting this partnership. As for the machine itself, our team is extremely happy and confident with the machine, and we're proud to uphold our promise of having the best machines in our area.

Priyank Virmani, TOPH Packaging, Haridwar

We have four Flexo presses from Alliance Printech, and over the years, we've built a strong relationship with their team. Every time we've encountered a challenge, they've stood by us, offering not just technical support but genuine partnership. Alliance is more than just a machinery supplier to us – they're a part of our growth story. With Aryaman now joining the team, we're excited to explore new opportunities and take our business to the next level. Here's to many more milestones together!

Anubhav Bhasin, Prakash Hitack, Baddi

We added an Alliance flexo press to our setup in 2022, alongside our existing European press, and we are extremely happy with our decision. The machine holds flawless registration and has consistently exceeded our expectations in performance and quality. Happy to be a part of Alliance's journey!

Chaitanya Vora, Accutech Packaging, Vadodara
